

Quality Policy

The Joint Perforating Company (Coventry)

JPC(Coventry) including its supporting functions has embraced the philosophy and approach of the Automotive Quality Management System Standard IATF 16949:2016 as the recognised model on which to base its Quality Policy and Quality Management System, that in turn are interlinked and support the company's Strategic Business Direction and Plan.

JPC(Coventry) regards the achievement of "total customer satisfaction" as a key business objective and is fulfilled through the effective application and continual improvement of the company's Quality Management System.

JPC(Coventry) places emphasis on identifying and managing risk within the business to ensure sustained supply of products that fulfil its customer specific requirements together with compliance to national, international and regulatory legislation.

JPC(Coventry) is able to provide product and services to evaluated customer supplied specifications and specific requirements only, therefore justifying exclusion of product design or development requirements from its Quality Management System.

JPC(Coventry) undertakes timely review of its Quality Policy to ensure on-going effectiveness and suitability, together with continual measurement and evaluation of its business performance indicators to ensure achievement of targets against strategic business plan objectives.

JPC(Coventry) communicates this policy to employees, sub-contractors and visitors and is available for review by interested parties.

JPC(Coventry) encourages the development, involvement and motivation of its workforce in order to achieve sustained profitability and growth using an ethical and innovative approach.
